What is it?

Proquest® is a research database platform that makes hundreds full text and abstracts of scholarly articles and journals available to students. Categorized databases include Business, General Research, Health Sciences & Nursing, History, Literature, News & Issues, Science & Technology, and Social Sciences. Proquest® also includes hundreds of libguides, collections put together to make research even easier.

Who’s it for?

Students in high school and beyond

How do I find what I need?

Basic Search of all subject areas and databases

Advanced Search Tools:

- Subject headings
- Location
- People
- NAICS codes (North American Industry Classification System)
- Company/organization
- Source type
- Document type
- Language

How can I use it?

- Teach research skills in context of a research project
- Digital literacy skills
- Evaluation of resources
- Direct instruction of search terms and strategies
- Types of resources and how they can be used
- Mini research projects
- Scavenger hunt for specific resources and document types
