

The Butterfly Song

Gather round children, don't be shy,
Let's talk about the lovely butterfly.
It's life has stages as you can see,
Four times it changes and looks differently.

*Egg, larva, pupa, adult butterfly,
It's not hard to learn, Just give it a try.
Egg, larva, pupa, adult butterfly,
Are you happy with yourself?
Well, so am I!*

Momma butterfly lays her eggs on a leaf,
Turns to caterpillar, or larva if you please.
Caterpillar, larva are the same thing
So let's use larva as we sing about the...

*Egg, larva, pupa, adult butterfly,
It's not hard to learn, Just give it a try.
Egg, larva, pupa, adult butterfly,
Are you happy with yourself?
Well, so am I!*

The larva make a shell and very soon,
We then have a chrysalis or moth cocoon.
The chrysalis, cocoon and pupa are the same
So let's use pupa in our butterfly game.

*Egg, larva, pupa, adult butterfly,
It's not hard to learn, Just give it a try.
Egg, larva, pupa, adult butterfly,
Are you happy with yourself?
Well, so am I!*

The final stage is the adult butterfly,
With 2 antenna, 4 wings that makes this beauty fly.
She lays her egg on a leaf and then,
She starts that cycle all over again.

*Egg, larva, pupa, adult butterfly,
It's not hard to learn, Just give it a try.
Egg, larva, pupa, adult butterfly,
Are you happy with yourself?
Well, so am I!*
