Navigation Bar
At the top of the page you’ll find the **NAVIGATION BAR** with links to the 5 main areas of *MyTeachingStrategies*: Teach, Assess, Develop, Report, and Family.

Click the *MyTeachingStrategies* logo from any page to navigate back to your dashboard.

To the far-right of the navigation bar you’ll also find your class identifier, indicating which class view you are currently using, and an icon with your initials that opens up your personal settings. Here you can check your messages, manage your user profile, manage your classes, access the Sandbox, toggle to a different classroom, or logout. Later in this guide we’ll provide details for each of these areas.

Shortcuts
Under the navigation bar, you’ll see your **SHORTCUTS** under the header “What would you like to do?” These icons provide you with quick access to frequently used features within *MyTeachingStrategies*.

How-To Guide for Teachers
The TEACH area provides planning functionality to help you link your assessment data with instruction. Here you’ll find weekly and monthly planning calendars and digital curriculum assets.

Within the Teach SUB-NAVIGATION BAR, you’ll find three options: MONTH, WEEK, and WEEKLY TEMPLATE.

**MONTH** shows your monthly calendar view. Here you’ll see a high-level snapshot of what topics you’ll be covering throughout the month. In the monthly view you can:
- Add studies (for digital curriculum subscribers)
- Remove studies (for digital curriculum subscribers)
- Modify days
- Clear days

**WEEK** shows your weekly calendar view. Your weekly calendar will provide more detail into your daily schedule of activities. In the weekly view you can:
- Add activities
- Delete activities
- Reorder your day
- Print your calendar

**WEEKLY TEMPLATE** allows you to customize your weekly calendar view. Changes made to your template will be reflected in your weekly calendar view week after week. In the weekly template you can:
- Add to your template
- Delete from your template
- Reorder your template
Setting Up Your Weekly Template

By setting up your weekly template you can automatically populate your weekly plans with your classroom schedule. You can add, delete, or reorder times of day within the template to reflect your classroom schedule.

When you first access the Teach area, your calendars will be blank. Follow the steps below to customize your calendars.

From the sub-navigation, select **WEEKLY TEMPLATE**.

If your classroom has additional digital curriculum resources, the template will already include times of day coming from the At-a-Glance section of the Teaching Guides. Otherwise, the template will be blank and can be customized as needed.
Adding Times of Day to Your Weekly Template
To add times of day to the Weekly Template, follow these steps:
- Select ADD TO TEMPLATE.
- Select one or more days of the week that you wish to modify, then select NEXT.
- Select a time of day from the drop-down menu, and then select DONE.
- The time of day that you selected will now appear on the Weekly Template for the day(s) selected.
- If you select the "Custom" time of day, you can click into the title of that time of day and rename it.
- Select SAVE to recalibrate your template.

Deleting Times of Day from Your Weekly Template
To delete times of day from your Weekly Template, follow these steps:
- Select DELETE FROM TEMPLATE.
- Choose the desired times of day to remove and select DONE.
- Select SAVE to recalibrate your template.

Note for Digital Curriculum users:
Times of day that are automatically populated from the Creative Curriculum cannot be deleted.

Reordering Times of Day in Your Weekly Template
To reorder times of day in your Weekly Template, follow these steps:
- Select REORDER.
- Drag and drop times of day to where you'd like them to appear on your schedule and select DONE.
- Select SAVE to recalibrate your template.
Customizing Your Monthly Calendar

You can customize your monthly calendar to account for holidays, school closures, or any other deviations from your typical schedule. You can also clear any days you have modified if there is a change.

Preschool and Kindergarten subscribers to the digital curriculum resources have the option to add and remove studies from The Creative Curriculum®.

Modifying Days
Select or tap MODIFY DAYS on the left-hand side of the screen; then select a day on the calendar you wish to modify.

Type in the modification you wish to make (e.g., Thanksgiving, Professional Development Day, Snow Day), choose how many days this customization affects, and then select CONFIRM.

Your customized day(s) now appears on the calendar. What was originally planned on that day has now automatically moved to the next day.

Clearing Days
To remove any modified days on your calendar, select CLEAR DAYS on the left-hand side of the screen.

Select the day you wish to clear in your calendar, then select SAVE.

The modified day is now removed from your calendar. Any planned days that were moved to a future date to accommodate the original modification will now automatically shift back.
Customizing Your Weekly Calendar

Once you've set up a template and used the monthly features, your weekly calendar will update to reflect these plans. You can also modify your weekly calendar to add additional activities beyond what is coming from your weekly template. You can also delete any activities and reorder a particular week's schedule.

Adding Intentional Teaching Experiences/Opportunities

If you select CUSTOM ACTIVITY, use the Custom Activity form to create an activity and select “Add to Plan.”

If you select INTENTIONAL TEACHING EXPERIENCE/OPPORTUNITY, follow the step-by-step instructions on how to purposefully use the Class Profile to plan for Intentional Teaching experiences or opportunities.

Select ADD ACTIVITY from the left side of the screen.

Select the days of the week you wish to add activities to, then select NEXT.

What is an Intentional Teaching Experience or Opportunity?

Intentional Teaching experiences or opportunities are activities designed to help you support individualized instruction for children in small-group, large-group, or one-on-one settings. If using MyTeachingStrategies® to plan for a preschool classroom, you will use Intentional Teaching experiences. For infants, toddlers, and twos classrooms, you'll see Intentional Teaching opportunities. If using GOLD®, MyTeachingStrategies® will draw from the most recent assessment information available for each child in your classroom to help you plan for and teach these experiences/opportunities. While teaching, you will have the opportunity to add documentation with preliminary levels into children's portfolios.
Adding Custom Activities
You can create your own custom activities to add to your weekly plans. These activities can be saved and used again for future weekly plans.

Select any unplanned time of day on your weekly calendar and select NEXT.
Select CUSTOM ACTIVITY.
Add a title and a description under "What You Do," select a time of day, select any related objectives/dimensions, select the children participating in the activity, and select if you wish to save this activity to your library for future use.
If you have saved custom activities, you can select one to prefill the items.
Select SAVE to add the activity to your plan.

Deleting Activities from Your Weekly Calendar
To delete an activity you have added from your weekly calendar, select DELETE—ACTIVITY from the left side of the screen.
Choose any activity from your weekly calendar you wish to delete and then select SAVE.

Reordering Times of Day in Your Weekly Calendar
To reorder times of day in your weekly calendar, select REORDER on the left side of the screen.
Drag and drop times of day to reflect the order that you want them in, then select SAVE.

Print
To print your weekly plan, select PRINT on the left side of the screen.
You can customize how the printed plan appears by including or removing a print view, the days of the week, display options, and the times of day. Then, select SUBMIT.
A PDF of your weekly plan will generate in a separate browser tab, where you can save to your computer, or print.
Submitting Weekly Plans
Once you’ve added plans to your weekly calendar, you can submit your plans to an administrator.

In the Week view, select SUBMIT from the left-hand navigation bar.

A new screen will appear asking you to provide a title for your weekly plan.

1. Add a title for your weekly plan
2. Select the administrator you’d like to share the plan with. You can only share your plan with one administrator at a time. If you’d like to share your plan with more than one administrator, please follow these steps again.

Click SUBMIT to share your weekly plan with your administrator.
Teaching with an **Intentional Teaching Experience/Opportunity**

Each **Intentional Teaching** experience/opportunity includes step-by-step "What You Do" instructions and an embedded, color-coded teaching sequence that offers guidance on how to adapt the experience/opportunity for each individual child.

Children’s names appear within the teaching sequence based on the most recent preliminary ratings or checkpoint ratings that you have entered. The guidance that appears alongside children’s names can be used to promote each child’s development and learning for the skills, knowledge, and behaviors of the experiences/opportunities primary objective/dimension.

If children join mid-experience/opportunity, include them by simply choosing their names in the Teaching Sequence and selecting **SAVE**.

**Intentional Teaching Experience/Opportunity Navigation**

Within an **Intentional Teaching** experience/opportunity, the left-hand navigation bar provides helpful resources to assist your teaching practice.

- **Objectives/Dimensions** lists the primary objective/dimension and any related objectives/dimensions for the experience/opportunity.
- **Materials** offers a list of the materials needed for the experience/opportunity.
- **Including All Children** offers guidance on including children with special needs or children who are English- or dual-language learners.
- **Questions To Guide Your Observations** helps you focus your observation planning; these questions also appear in the "Assess" feature.
- **Make A Family Connection** offers the option to print or share LearningGames" with family members.
- **Additional Ideas And Background Information** provides further guidance to support your teaching.
- **Support and Resources** offers a tour of the **Intentional Teaching** experience/opportunity and the option to view a video tutorial on teaching and assessing while using the experience/opportunity.
- **Professional Development** includes audio clips, including guidance from a Teaching Strategies author about the **Intentional Teaching** experience/opportunity; descriptions of the primary objective/dimension, as well as a video of the primary objective/dimension in action.
- **Print** offers the option to print the **Intentional Teaching** experience/opportunity with the children’s names embedded in the Teaching Sequence.
- **View in Spanish** reveals the Spanish version of the **Intentional Teaching** experience/opportunity.
Adding Documentation While Using an Intentional Teaching Experience

You can assess children’s skills, knowledge, and behaviors while teaching with Intentional Teaching experiences by adding documentation with preliminary levels.

While teaching with an Intentional Teaching experience, toggle from the TEACH area to the ASSESS area. Here you will find the Questions to Guide Your Observations; select a question to reveal that question’s related objective’s/dimension’s progression.

The children taking part in the Intentional Teaching experience appear beneath the progression. To answer the question, select a level for each child.

You can select another question if you would like; otherwise, select SAVE when you are done. This will add documentation with the selected preliminary levels into each child’s portfolio.

In each child’s portfolio, the documentation will appear with a system-generated observation note explaining the experience, as well as any included preliminary levels. This will also appear within the progressions at checkpoint time, so you can use this documentation to inform your final checkpoint decisions.
Additional Information for Preschool and Kindergarten Classrooms

Adding Studies to Your Calendar
Subscribers to the preschool/prekindergarten and kindergarten digital curriculum resources are able to add the At a Glance content from any of the Teaching Guides from The Creative Curriculum® for Preschool or The Creative Curriculum® for Kindergarten to the TEACH calendars.

Adding a Study
1. Select ADD A STUDY on the left-hand side of the screen.
2. Select the calendar day on which you wish the study to begin.
3. After verifying your selection, the study will be added to your calendar.
4. If you want to add a study to your calendar beginning mid-study, repeat the first step and choose "I want to select my own starting point within this study" – this will add the study from that point forward.

Removing a Study
1. Select REMOVE A STUDY on the left-hand side of the screen.
2. Select a day on the calendar that contains study content.
3. Select CONFIRM.

This functionality will remove the study from that day forward. Any planned days in the future will now automatically shift back.
Additional Information for Infants, Toddlers, and Twos Classrooms

Planning for Routines
Teachers or caregivers for infants, toddlers, and twos classrooms can create a weekly plan for the five routines for each child in a classroom: Hellos and Goodbyes, Diapering and Toiletting, Eating and Mealtimes, Sleeping and Nap Times, and Getting Dressed. These individual care plans can be created for each child, and used to help you keep track of family-provided information about a child’s routine, select routine-specific strategies to use for each child, and select routine-specific Intentional Teaching opportunities to use during each routine.

Creating an Individual Care Plan
This child’s Individual Care Plan is now saved for one routine. Continue these steps to enter information for other routines for each child.

1. Select WEEKLY ROUTINES from the Teach area sub-navigation
2. Select CREATE PLAN to begin creating an individual care plan for a child
3. Respond to the questions with information provided by the child’s family members and select SAVE
Adding Intentional Teaching Opportunities to a Child’s Routines Plan

Select WEEKLY ROUTINES from the Teach area sub-navigation.

Select VIEW PLAN.

Select EDIT.
Select the **INTENTIONAL TEACHING OPPORTUNITIES** option to reveal different **Intentional Teaching opportunities** to use for a child for the selected routine. Select the name of an **intentional Teaching opportunity** to preview.

You can then select additional **Intentional Teaching opportunities** or select **SAVE**.

If you wish to plan for the opportunity that you've previewed, select the child's name, the **Teaching Sequence** and select **ADD TO PLAN**.
Adding Strategies to a Child's Routines Plan

Infants, Toddlers & Twos programs who subscribe to *The Creative Curriculum™*, Digital Resources can also add Strategies to a child's routine plan.

1. Select **WEEKLY ROUTINES** from the Teach area sub-navigation.
2. Select **VIEW PLAN**
3. Select **EDIT**
Expand the STRATEGIES section to reveal different strategies to use for a child for the selected routine. These include generic strategies as well as suggested options from The Creative Curriculum.

Select one or more strategies and select SAVE.

This child now has saved strategies for one routine. Continue to select strategies for other routines for each child.
Assess

To access the Assess area, select the pencil icon from the main navigation bar.

How-To Guide for Teachers
Documentation
In the Assess area you’ll find everything you need to enter assessment information for the children in your classroom. Here you can view and add documentation, and input your checkpoint data.

Within the Assess sub-navigation bar you’ll find six options: Add Documentation, View Documentation, On The Spot, Checkpoint By Child, Checkpoint By Class, KEA Survey (if applicable), and Checkpoint Dates.

Adding Documentation
To create digital portfolios for the children in your class, select ADD DOCUMENTATION from the sub-navigation.
Select the children in your class you'd like to add documentation for. Choose SELECT ALL to choose all children in your classroom.

Input the documentation date in the DATE OBSERVED field. Note this is the date that you collected the documentation, not the day you entered the documentation into the tool.

Add notes to your documentation by clicking the + symbol to the right of ADD NOTES and adding text within the text box.

The DOCUMENTATION SUMMARY will provide a summary of the information you've provided for your documentation.

Upload pictures, videos, or other files to your documentation by clicking the + symbol next to UPLOAD A FILE and selecting the ADD FILE button.

Tag relevant objectives/dimensions to the documentation by clicking the + symbol to the right of ASSIGN OBJECTIVES/DIMENSIONS. Select the appropriate dimension from the list on the left, and select all appropriate objectives.

Select SAVE & CONTINUE to save your documentation.

A single observation note can relate to more than one objective or dimension, so teachers can assign documentation to multiple objectives and/or dimensions. Select the appropriate area from the list on the left, and select all appropriate objectives/dimensions.

File Sizes and File Types
Maximum file sizes are 100MB for videos and 5MB for other files. Allowed file types are JPEG, GIF, MP3, MPEG, AVI, TIFF, Microsoft® Word, PDF, WAV, QuickTime Movie, AIFF, MP4, and Windows® Media.

Copyright © 2017 by Teaching Strategies, LLC. All rights reserved. Teaching Strategies, The Creative Curriculum, LearningGames, 20Q, Bob, Tiddyleaps, Mighty Minutes, Mega Minutes, the open book/open door logo, and MyTeachingStrategies are registered trademarks of Teaching Strategies, LLC, Bethesda, MD.
Selecting a Preliminary Level

You may choose to assign preliminary levels for the objectives/dimensions you related to a particular piece of documentation. These are not final checkpoint decisions; you will make those at the end of the checkpoint period after reviewing all the documentation under the checkpoint tab. Follow the steps below to set preliminary levels on the next screen.

Click here to hide or show the colored hands. Point to **HIDE COLORED BANDS** button.

Click **SHOW EXAMPLES** to see examples of behaviors at each developmental level.

Use the arrows or the progression slider to scroll left or right along the progression.

Click the circle under the appropriate level to assign a preliminary level on the basis of this particular piece of documentation.

Use the MyTeachingStrategies® app to easily capture documentation using a mobile device. Download the app onto your Apple mobile devices from the App Store, or onto your Android mobile devices from the Google Play® Store or Amazon Appstore for Android.

The colored bands on the progressions indicate the age and class/grade for widely held developmental and learning expectations. While there is a typical progression for each objective, it is not rigid, development and learning are uneven, overlapping, and interrelated. More information is available in the Objectives for Development and Learning course under My Courses in the Develop area.

View Documentation
To view documentation you have previously added, select **VIEW DOCUMENTATION** from the sub-navigation. Here you'll see all documentation you've collected, sorted by date of observation with the newest pieces of documentation listed first.

Select **FILTER DOCUMENTATION** to find documentation for specific keywords, checkpoint periods, children, dates, file types, authors, or objectives/dimensions.

Use the **SORT BY** drop-down menu to sort by Date of Observation or Date Added.
Modifying or Deleting Documentation
From the View Documentation screen, select the piece of documentation to edit or delete.

To edit the documentation, select EDIT DOCUMENTATION.

To delete the documentation, select DELETE DOCUMENTATION.

Individualizing Documentation
When viewing documentation with more than one child associated with it, you can individualize that documentation so that a copy of that documentation appears in each child's individual portfolio. You can then access each child's unique piece of documentation to edit and add more notes or objectives/dimensions that are specific to each child.
On The Spot Recording Tool

The On The Spot Recording Tool is a checklist that you can use to collect information quickly, either for one child or a group of children. Information about a child's behavior as it occurs during the course of play or planned small-group times contributes to the total picture of a child's development. Documenting children's learning means recording and preserving your observations throughout the day. Documentation takes many forms: observation notes, photographs, video or audio clips, checklists or samples of children's work.

To access this tool, select ON THE SPOT from the sub-navigation.

Creating a customized On-the-Spot Recording Tool

1. Click here to select the children you would like to include.

2. To show the color bands, select COLOR under SELECT OUTPUT.

3. Expand the SPECIFIC OBJECTIVES AND DIMENSIONS drop-down menu by clicking the + icon to customize the objectives/dimensions shown.
**Checkpoints**

Within the **Assess** area, the **Checkpoint By Child** and **Checkpoint By Class** areas give you access to the tools you need to enter your assessment decisions at the end of each checkpoint period. This is where you will enter your final decisions about levels, as distinguished from the preliminary levels you selected in the **Add Documentation** area.

**Entering checkpoint levels**

There are two ways to enter your checkpoint information: **Checkpoint By Child** and **Checkpoint By Class**. **Checkpoint by Child** allows you to add checkpoint levels one child at a time, while **Checkpoint By Class** allows you to enter checkpoint levels for an entire class. No matter which option you choose, you'll need to select the objectives/dimensions you would like to set levels for on the **Objectives/Dimensions** screen.

The circles to the right of each objective show your progress. The active area will show the circles in color. Other inactive areas are seen in gray.

- **Not Yet Started**: An empty circle indicates the area is not yet started.
- **In Progress**: A half-filled orange circle indicates the area is in progress.
- **Completed**: A filled-in orange circle indicates that you have completed assigning all checkpoint levels for the area.
- **Final**: A green circle with a checkmark indicates that you have finalized checkpoint levels for this area.

Once you've chosen an objective/dimension, you'll be led to the progression screen. This is where you will make your assessment decisions for each objective/dimension for each child. Remember, the colored bands on each progression show age or class/grade ranges for widely held developmental and learning expectations.

Select **SHOW PREVIOUS CHECKPOINT** to see the checkpoint level(s) previously assigned for this objective/dimension.

Select **DISPLAY DOCUMENTATION** to see any documentation added for this objective/dimension.

If entering levels through Checkpoint By Child, you'll see only one child's name here. If entering levels through Checkpoint By Class, you'll see your full class list here.

Use the arrows or the progression slider to scroll left or right along the progression.

If you don't see documentation that you entered, be sure to verify that you are in the correct checkpoint period.

Select **SHOW or HIDE COLORED BANDS** and/or **SHOW or HIDE EXAMPLES** to customize your view.

To assign a level, select the circle under the appropriate level. The selected level will now be green with a checkmark.

Toggle between **PROGRESSION VIEW** and **LEVEL VIEW** to view an individual level only.

Preliminary levels entered while adding documentation will appear as a folder for the corresponding child at the level where the preliminary level was made. The number in the folder reflects the number of preliminary levels made at that level for that child.

When you are finished, select **NEXT** to continue to the next objective/dimension. Alternatively, you can click the **SAVE AND CLOSE** button to save your entry and return to your initial checkpoint screen.
Science and Technology, Social Studies, and the Arts

Objectives for science and technology, social studies, and the arts may appear in a checklist format. MyTeachingStrategies® does not define progressions in these areas. If you are going to rate children’s knowledge, skills, and behaviors in these areas, base your decisions on the expectations identified by your program.

Finalizing Checkpoint Data

MyTeachingStrategies® has two types of status for your checkpoint entries: un finalized and finalized. Your assessment decisions are considered “un finalized” until you choose “finalize.” Finalizing the entries signals to your administrator that you are not making any further changes to your decisions.

Viewing Checkpoint Dates

To see your checkpoint due dates, select CHECKPOINT DATES from the sub-navigation.

Use the drop-down menu to adjust the year viewed.
**GOLD Kindergarten Entry Assessment Survey**

The **GOLD Kindergarten Entry Assessment Survey** helps you save time entering checkpoint levels during the first checkpoint of the kindergarten school year. The survey asks you to compare students' knowledge, skills, and behaviors with where we typically expect students to be when they enter kindergarten for each objective and dimension.

You can access the survey by selecting **KEA SURVEY** from the Assess area.

The survey also provides brief assessment prompts for many objectives/dimensions to help you answer questions accurately. These assessment prompts are found on the left-hand side of each screen.

The survey questions help you focus on the indicators of the progression that describe kindergarten readiness. These questions appear to the right of the grey "Q:" above each progression.

How-To Guide for Teachers
Interrater Reliability Certification

Interrater reliability is an online certification process that gives you the opportunity to evaluate sample child portfolios and compare your ratings with those of Teaching Strategies master raters.

It is important to use GOLD® reliably, both to scaffold children's learning and because your program administrator is likely to use your data in some way for reporting purposes. When you use assessment results to inform instructional decisions, accurate ratings enable you to choose effective teaching strategies. When you know you are using an assessment tool reliably, you can be confident about your classroom decisions. You know that you are interpreting evidence of children’s development and learning in ways that enable you to plan for and respond appropriately to all the children in your classroom.

Interrater Reliability Certification is neither designed nor intended to evaluate you as a teacher. Its purpose is to support your ability to make accurate assessment decisions.

Interrater Reliability Certification Process

You will begin the Interrater Reliability Certification process by evaluating sample portfolios. The portfolios include enough evidence to rate each child’s knowledge, skills, and behaviors in six areas of development and learning: Social-Emotional, Physical, Cognitive, Language, Literacy, and Mathematics. The children whose portfolios you will evaluate have been attending their program for a while and have not had excessive absences, so you should not choose “Not Observed” for any rating. If at least 80 percent of your Round 1 ratings agree with the master ratings in each area of development and learning, you will have earned certification. If not, you will be able to evaluate three more portfolios, concentrating on the areas in which you did not reach 80 percent agreement. If there are areas in which you do not reach 80 percent agreement during Round 2, you will be able to evaluate a third set of portfolios, focusing on those areas. You will be able to continue with additional rounds until you have reached agreement of at least 80 percent in each area. The number of rounds you may undertake is unlimited.

Certification Testing Agreement

The Interrater Reliability Certification test is to be taken only by the individual named in the Teaching Strategies account. As an examinee, you should neither solicit nor accept any assistance during the testing process. In order to take the test, you will be required to certify that 1) you are the individual who is registered to take the test and 2) you are completing the test without assistance from any source.
Preparing for Certification

Teaching Strategies recommends that you complete GOLD® implementation training before beginning the certification process. Teaching Strategies provides two forms of implementation training: an online course (available to all GOLD® users via My Courses in the DEVELOP tab) or a 2-day, in-person professional development session. Training sessions introduce participants to the structure of GOLD®, the objectives for development and learning, the assessment cycle, and evaluation of child portfolios. You can prepare for the certification test by reading Objectives for Development & Learning, Birth Through Third Grade or taking the Objectives for Development and Learning online professional development course (available to all GOLD® users via My Courses in the DEVELOP tab) to become more familiar with the 38 objectives, the dimensions, and the progressions of development and learning.

How long will the certification take to complete?

You may take as much time as you need to complete each round. There are no time limits. Your starting and completion dates for each round will be listed under the Results By Round section of interrater reliability in the Develop area. We suggest that you take time between rounds to review the objectives for development and learning in the areas in which you did not reach 80 percent agreement. This also is a good time to review the GOLD® Introduction course within My Courses.
How to Complete the Test
Interrater Reliability Certification can be found in the DEVELOP area of MyTeachingStrategies™.

1. To begin, select NEW CERTIFICATION from the left-hand navigation.

2. At the bottom of the overview screen, you will be asked to read and agree to a verification statement. If you do not understand the statement for any reason, please consult with your administrator or send an e-mail to implementation@teachingstrategies.com for clarification.

Choose one of the following age groups as the focus for certification testing: Infants, Toddlers, and Twos, Preschool/Pre-K, or Kindergarten.

Select the objective/dimension you would like to assess on. This screen mimics the same screen you will use when completing your checkpoints.
The Checkpoint screen presents a progression that shows an objective, a dimension, indicators, examples, and ranges of widely held expectations.

Click **SHOW EXAMPLES** on the left-hand side of the screen to see the examples for the progression.

Click **NEXT** to proceed to the next dimension and continue until you have completed all the dimensions in that area.

During a morning circle-while lining up for recess and noticing that Chase is absent, he comes to stand next to me and says, "But Mrs. D Who will be my buddy?" I told him that he will be my partner for today and reminded him by telling him that I am sure Chase will be back tomorrow. He noticed Chase and Armand have been maintenance workers and they attended the same preschool over the summer and usually play together outside in the playground.

For lunch, Armand and Sophie are arguing about who got the last piece of cake. I reminded them to look at the job board, Armand went to the board and read that Sophie is the table cleaner and he is the floor sweeper. He said, "Oh, I will sweep the floor, but can I wipe the tables tomorrow?"

Rachael gets frustrated when other students are not following the rules, "I tell told me to do this, don't tell me to do that, it's my responsibility," but others are not following the rules. She doesn't raise her voice but continues to play the game.

September 10, 2014

Today's morning message said students will be making smoothies today in small groups. She said, "I can't wait!" and when class was over, "It's very important" Later, she was disappointed when she knew's in the first group, and she added, "I wish everyone could make smoothies today!" She has a plan and said she will start sending a recipe for her own smoothie. She said, "That's a great idea!" and got started.

You may stop at any time by clicking **SAVE & CLOSE** in the lower right-hand corner of your screen. You may leave the test, log out of your MyTeachingStrategies account, and return to the certification screens at any time.
Viewing Results

You will be given an overall score for each area of development and learning. If you need to complete another round of evaluations for areas in which you did not achieve at least 80 percent agreement with the master ratings, you will be given suggestions for preparing for another round. Please note that the results screen shows a total agreement score for each round and area. To maintain the integrity of the certification, the results screen does not provide specific information about how each of your item ratings compared with each master rating.

Once you have achieved a passing score in all six areas of development and learning, you will receive access to a link that enables you to print a certificate of completion for your records. Your certification will be valid for 3 years from the date you passed the certification test. The results of your certification test will also be available to your administrator through "MyTeachingStrategies".

To view your results, select RESULTS BY ROUND from the left-hand navigation.
My Courses

My Courses provides access to your online professional development courses and product tutorials. Each course and tutorial is made up of short, engaging segments that enable you to interact with material in different ways. The Objectives for Development and Learning course is included with your GOLD subscription or purchase of The Creative Curriculum®. All two-hour product tutorials are available for free. Online professional development courses are available for purchase and provide CEU credit upon completion.

To access your courses, select MY COURSES from the sub-navigation of the Develop area.

Click on a bubble to begin that course.
After selecting your course, you'll see the course overview screen.

Each course is separated into several different topics called interests. You can choose to complete the interests in a course in the order that best suits you. Hover over an interest bubble to see a description of that interest, an estimated time to completion, and a % of completion.

Assessment Status

The Assessment Status report will tell you how far you have progressed in completing the assessment for a checkpoint. Continue to generate this report throughout your checkpoint period until all status bars are colored green. This report will also show which children are missing a rating by objective and dimension.

To create an Assessment Status report, access the Report area and select GO for the Assessment Status report. The report will automatically generate for the current checkpoint period.

When should I use the Assessment Status report?

This report should be generated on a regular basis starting two weeks before the checkpoint due date. This will allow you to monitor your progress as you complete the checkpoint. A few days before the checkpoint due date, the report should show 100% completion and finalization.

Report Results

The top of the report provides a summary of your checkpoint progress.

- A solid orange bar indicates a completed area that has not been finalized.
- A green bar indicates a finalized area.
- A partially filled bar indicates the percentage of completion for that area.
- An empty circle indicates that the checkpoint has not been started for that particular objective/dimension.
- Click on an unfilled circle to complete the checkpoint for an unfinalized objective/dimension.
- A complete green circle with a checkmark indicates that the checkpoint has been finalized for that particular objective/dimension, but not finalized.

Use the CHECKPOINT PERIOD drop-down menu to change the checkpoint viewed.

Adjust the report view by selecting a different area from the SORT BY drop-down menu.
Class Profile

The Class Profile report compares information about the children in your classroom with widely held expectations for their age or class/grade during a particular checkpoint period. This report will inform and support your planning for small- and large-group activities, as well as activities for individual children. This report can also be shared with your Administrator along with your lesson plans to show intentional planning for all children in your class.

To create a Class Profile report, access the Report area and select GO for the Class Profile report.

Report Criteria

1. Customize your report by selecting the appropriate CLASS, CHECKPOINT PERIOD, AGE OR CLASS/GRADE, and which levels to include.

2. Select GENERATE REPORT.
Report Results

At the top of the report you will see a summary of the information represented in the report.

The numbers at the top of the table correspond to the level.

Each area of development and learning is represented in its own table.

Levels for the widely held expectations for the age or class/grade represented will be filled in with color.

**Individual Child**

The Individual Child report summarizes a single child's skills, knowledge, and behaviors, compared to the child's age or class/grade-appropriate widely held expectations. This report will inform and support your planning for individual children. You should use this report when you need to focus on one child at a time to create individualized learning plans. The information about an individual child can also be shared with other stakeholders to discuss and plan for supporting their needs. This report can show multiple checkpoints. This report is an especially helpful resource to use for IFSP/IEP planning, as well as for tracking progress across multiple checkpoint periods.

To create an Individual Child report, access the Report area and select **GO** for the Individual Child report.

**Report Criteria**

1. Customize your report by selecting the appropriate **CHILDREN**, **CHECKPOINT PERIOD**, **OBJECTIVES AND DIMENSIONS**, and which levels to include.

2. Select **GENERATE REPORT**.

---

**When should I use the Individual Child report?**

This report can be generated on a weekly basis for lesson planning specifically for children that require additional support. This can assist in planning and scaffolding for individual children and can assist with setting goals. This would also be an appropriate report to use when discussing progress that a child has made from one checkpoint period to the next.

Development and Learning

The Development and Learning report highlights a child's strengths in particular areas of development and learning. Many teachers use this report to communicate with other stakeholders about a child's development. This allows teachers to clearly and concisely discuss the areas in which a child is able to demonstrate his or her abilities and allows a team of educators and family members to make a plan to support the continued growth.

To create a Development and Learning report, access the Report area and select GO for the Development and Learning report.

Report Criteria

1. Customize your report by selecting the appropriate CHILDREN, CHECKPOINT PERIOD, AREAS OF DEVELOPMENT AND LEARNING, and which levels to include. You can also choose to include Objective and Dimension numbers.

2. Select GENERATE REPORT.

When should I use the Development and Learning report?

This report can be generated as soon as you enter preliminary checkpoint information. This is a good report to use to communicate with family members and to include in a child's file at the end of the school year. This report provides a good alternative to the Report Card for younger children.
### Development and Learning Report: Isabella Ramirez

**Date:** December 18, 2016  
**Class:** Infants and Toddlers  
**Teacher:** Megan Teacher  
**Child:** Isabella Ramirez  
**Areas of Development and Learning:** Social-Emotional, Physical, Language, Cognitive, Literacy, Mathematics  
**Period:** Winter 2016/2017 — All Levels (Preliminary, Unfiled, Finalized)

This report highlights your child's strengths in particular areas of development and learning.

#### Social-Emotional

Currently, Isabella:

- (A) is beginning to comfort self by seeking out special object or person  
- (B) is beginning to accept redirection from adults  
- (C) seeks to do things for self  
- (D) is beginning to use trusted adult as a secure base from which to explore the world  
- (E) reacts to others' emotional expressions  
- (F) plays near other children; uses similar materials or actions  
- (G) is beginning to work with preferred playmate; shares pleasure when engaging  
- (H) responds appropriately to others' expressions of needs  
- (I) is beginning to express feelings during a conflict

Next to follow will:

- (A) Comfort self by seeking out special object or person  
- (B) Accept redirection from adults
Report Card

The Report Card provides up-to-date information for families about their child’s skills, knowledge, and abilities. This report displays information about the child’s current abilities, as well as what next steps can be expected.

To create a Report Card, access the Report area and select GO for the Report Card.

When should I use the Report Card?
The Report Card can be used after each checkpoint period to communicate with family members. The Report Card takes information directly from the checkpoint decisions a teacher has made for each child and organizes the information in a way that a family member can independently understand. This report is most appropriate for kindergarten classes or above.

Report Criteria

1. Customize your report by selecting the appropriate CHILDREN, OBJECTIVES AND DIMENSIONS, and LANGUAGE.

2. Select GENERATE REPORT.
Report Results

In the right column, the report will first outline the skills and abilities the selected child currently displays. Below, the report will outline the skills and abilities the child will display next.

At the top of the report you will see a summary of the information represented in the report.

Each area of development and learning is represented in its own table.

For each objective/dimension, the Report Card will indicate if the child is Exceeding Expectations (E), Meeting Expectations (M), or Progressing Toward Expectations (P).
Snapshot

The Snapshot report displays assessment results at a given point in time. It allows you to see child outcomes in two ways: by areas of development and learning, and by objective/dimension. The Snapshot report is commonly used at the first checkpoint of the year so that administrators can identify the strengths and areas of need that children have upon entering the program. This helps administrators identify professional resources and support that teachers may need based on the unique Snapshot report for each class.

To create a Snapshot report, access the Report area and select GO for the Snapshot report.

Report Criteria

1. After launching the report, select GENERATE REPORT.

2. Customize your report by selecting the appropriate CHILDREN, CHECKPOINT PERIOD, which data and levels to include, and your output type. You can also select whether to generate the report by Widely Held Expectations or Kindergarten Readiness.

3. Select GENERATE REPORT.

When should I use the Snapshot report?

This report is more widely used by administrators than by teachers but you may want to generate it after the first checkpoint period to get a better understanding of what the data will look like from an administrator’s perspective.

The Snapshot report can be viewed in either a Table or Graph format.

The report shows the number and percentage of children in the class whose skills, knowledge, and behaviors are Below, Meeting, or Exceeding the Widely Held Expectations for each area.
Alignment
The Alignment report enables teachers and administrators to quickly see how the children in their classrooms are developing in relation to the Common Core State Standards, The Head Start Child Development and Early Learning Framework, and the early learning standards for their states.

The Alignment report shows the percentage of children whose knowledge and skills are emerging and the percentage of children who have accomplished the Common Core, Head Start or state standards. Additionally, it shows the end-of-year expectation for each objective/dimension as well as the average score for a group of children.

To begin creating your report, access the Report area and select GO for the Alignment report.

1. After launching the report, select GENERATE REPORT.
2. Customize your report by selecting the appropriate CHILDREN, CHECKPOINT PERIOD, STANDARDS, which levels to include, and if you’d like to include Archived Children.
3. Select GENERATE REPORT.

When should I use the Alignment report?
This report can be generated all year long to see how your assessment data aligns to other standards and measures your program's progress.

Setting Up a Class
To start using MyTeachingStrategies™, you need to set up a class and enter information about the children. From the settings drop-down menu, select MANAGE MY PROFILE, and select My Classes from the sub-navigation. Here you can pull a class list, and add, delete, or manage classes.

Adding a New Class

1. To add a class, select the ADD CLASS button.
2. Enter a class name that is appropriate for reporting purposes.
3. Select the appropriate age or classes/grade that applies to your class. If you teach a mixed-age class, base your selection(s) to include the ages/grades in your classroom.
4. Click SAVE. Placement in infants, toddlers, and two classes depends on the child’s birth date. Preschool preK, and Kindergarten classes are identified according to the curriculum you are teaching rather than the children’s ages.
Children's Records
Once you have set up your class(es), you can begin adding children’s names as well as demographic and other relevant information.

Add a Child’s Record

1. To add a child, select MY CHILDREN from the Manage My Class sub-navigation and select the ADD CHILD button.

2. For infants, toddlers, and twos classes, the system will automatically generate an age or class/grade designation based on the child’s birth date. For all other classes you will need to assign a class/grade for each child.

3. If applicable, select YES to track Spanish language and literacy objectives for this child.

Select ADD+ to add a guardian to the child’s profile.
Adding a Family Member
You can add family members to a child’s profile. Adding a family member will give you easy access to their contact information through the child’s profile, and allow you to share documentation, lesson plans, and more!

1. To add a family member, select MANAGE MY CLASS from your Settings menu, select MY CHILDREN from the sub-navigation, and open a child’s profile by selecting a child’s name from the list.

2. Within the child’s profile, select the green ADD + button under Family Members.

3. Enter the family member’s name and contact information.

4. Select the family member type from the drop-down menu.

5. Select CREATE to save the family member to the child’s profile.

The family member will then be able to set up their account by visiting family.teachingstrategies.com and entering their email address. They will then receive a pin number from Teaching Strategies via email to verify their account. Once verified, the family member will be able to access their MyTeachingStrategies™ family account where they will have access to any shared information.
Home Language Survey

The Home Language Survey determines whether Objective 37, "Demonstrates progress in listening to and understanding English," and Objective 38, "Demonstrates progress in speaking English" (the English language acquisition objectives) will be included for this child. When Home Language Survey results indicate that the use of these objectives is appropriate, they are automatically added to the child's record.

The Home Language Survey may provide useful background information to assist you in planning and individualizing learning experiences for infants, toddlers, and twos. However, the survey is only available in Preschool, pre-K, Kindergarten, and 1st-3rd grade classes.
Accessing the Sandbox
The Sandbox allows you to practice using all of the features of MyTeachingStrategies™ without affecting the data of the children in your class. Think of this as a real sandbox, where you can play, investigate and learn!

To access your Sandbox, select ENTER SANDBOX from the settings drop-down menu.
